Steina and Woody Vasulka,

Thank you for inviting me to show the mindscape kinetic light system at the Kitchen. I would like very much to do this. When I spoke to you a couple of weeks ago you suggested the possibility of a formal or informal showing. I've given this some thought, and I don't think that the single mindscapes unit I have now would be suitable for a formal showing by itself, but it might work as part of a group show. At this stage an informal showing would probably be more appropriate.

Every time I think I've finished designing the mindscape system, I discover a new and better design within a few weeks. This has happened again since I spoke to you. So now I'm about to begin work on mindscape IV, which will be a larger, more versatile unit than the one I have now. Naturally I'd prefer to show this when it's finished, but that will probably take several weeks or more. Meantime, if all that's involved in an informal showing is showing you and bringing my stuff down one Wednesday evening, perhaps I could show mindscape III as a work in progress between now and mindscape IV. I'll try to get in touch with you in the near future. Thanks
