

Dear soso

Santa Fe. 28-Feb-91

My husband, Woody Vasulka has suggested that I approach you with a video installation proposal. I have over the years made several multiple channel, synchronous installations, displayed on variously configured banks of monitors. I have documented some of those on a video tape which I would be happy to submit to your selection board. If this is of interest to you, please respond and I will ship you a 3/4" U-Matic or VHS (NTSC) tape via Federal Express.

Sincerely,

Steina
