We spoke last spring about your coming to Athens for the Video Festival. Unfortunately you had prior committments.

This winter, we have reserved Ohio University Seigfred Gallery for a video installation, February 4-16, 1985. I would like to invite you to be that artist of this installation. In addition we would have a retrospective of your works and an informal workshop . Your residency would be for 2-3 days (for the opening, retro., and workshop) for which you would receive \$350. plus expenses.

PRODUCTION

Appalachian
Regional Media
Center

Dear Steina,

I have been trying to contact you by telephone but seem to always miss you. I wrote you on 11 September, inviting you to be the guest artist for a video installation that is being sponsored by Athens Center for Film and Video. In case, the letter was lost in the mail, I shall repeat the information.

We have reserved Seigfred Gallery at Ohio University for February 4-16, 1985 for a video installation, and for video exhibition, should we be able to do both. THE WEST would be something in which we are interested and having a retrospective of your works. If possible and should your schedule permit, I would like to invite you to be here for the opening and conduct a workshop in connection with the events. We will provide an honorarium and pay all expenses for you.

Gallery specifics can be provided. Equipment is relatively easy to obtain with advance planning.

I hope that you are interested in the installation and visiting Athens. Please let me know very soon so we can work out the details.

Cordially,

Emily Calmer
Executive Director

Should you come to Athens, our preferred dates are 7-8 or 8-9 Feb.
